Trishula Records returns again with the compilation Mechanophobia.
Nine unreleased and new tracks from our artists coming from various countries of the planet.

We are happy to see all the artists here together and present their crafts in one blasting compilation.

Mechanophobia presents new and known producers with one thing in common: wicked psychedelic acid music. Nine tracks with uncompromising music style, hard hitting drums with fatt basslines and sqeeking synths. The BPM is ranging from 144 to 152, all mature dancefloor songs to be played at night.

Made with love and passion for you to be taken on a trip where you will be lost in a space of mind delight.

You can expect more surprising music coming form these producers in 2006.
