Trishula Records is presenting the next artist album from the talented Buhrstein brothers.

Attoya is the brainchild of Alex and Leonid Burshtein, musicians since their childhood and now presenting their debut album.

Based on true events is a nine track story filled with sweeping sound scapes, distorted vocal samples and spooky melodies.

Attoya have created their own unique style, a typical forest kind of psychedelic trance music.

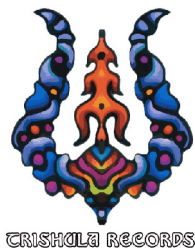

The musical story takes you through vicious night-time sceneries to more mysterious and vivacious sound spheres. The music is perfectly arranged for dancing amongst trees with the mythical creatures of the forest.

As all of our releases "Based on true Events" has a crisp sound and is perfectly mastered by Tim Schuldt @ 4cn-studios.

Artist Profile:

Artists profiles: <http://www.trishula-records.com/artists-pages/attoya.htm>

The first meeting with music went back to their childhood when Alex played the drums and Leonid played alt Saxophone. After visiting several bombas parties they began to make psytrance music. In the beginning they started with Reason but soon a music study followed to give the sound a better production quality. The Attoya project was born, their sound is best described as twisted forest music.
